CURTICE C. WHITE

BOX 107

HATFIELD, PA.

Spring Bulletin, 1931

THE past season was one of great discouragement for many of us, due to the drought, insects, etc. But we all look forward to another year, assuring ourselves that it must, indeed, be better.

We cannot say enough in favor of mulch paper. It certainly worked wonders for us, and we would highly recommend its use to others. As a means of conserving moisture and eliminating weeds, it cannot be beaten.

We would urge you to visit the second Flower Pageant to be held in Convention Hall, Atlantic City, N. J., September 5th to 10th, 1931. Those who attended the first one still remember it; but it is expected that the coming exhibit will far out-class that of last year.

The bulbs we send out are guaranteed to be strong, healthy and true to name. Anything proving otherwise will be replaced; but the results you will obtain are so far beyond our control that we cannot hold ourselves responsible for the same. Carrying charges prepaid on all orders for \$1.00 and over. Please send cash with order.

We do not issue a wholesale list, but we shall be glad to quote you prices on any quantity or size you might wish.

Please order early. We begin planting early in May and even though we try to hold some of each variety back for late orders, we frequently have to turn down orders because of late arrival.

Orders accepted subject to stock unsold. Unless specified otherwise, all bulbs will be large size. Medium size bulbs, except where single price is quoted, will be supplied at the rate of three for twice the price quoted for one large bulb. Bulblets can be supplied at the rate of one packet for the price of one large bulb.

If references are desired, communicate with the Hatfield National Bank, Hatfield, Pa.
